

# House Resolutions

- **Constitution:** Amendment for Congress to have a balanced budget
- **Constitution:** Amendment to recognize a zygote as a human being in the United States, following Alabama's Supreme Court decision in February on IVF
- **Education and Labor:** Support H.R. 899 introduced by Rep. Thomas Massie, "This bill terminates the Department of Education on December 31, 20[25]."
- **Energy and Commerce/Homeland Security/Transportation and Infrastructure:** Resume the Keystone Pipeline; Allow new leases on Federal land for energy sources and responsible mining sources
- **Energy and Commerce/Health and Human Services/Homeland Security:** Tax cuts be given to manufacturers who produce active pharmaceutical ingredients necessary for America's national health security
- **Energy and Commerce:** Consumers of electronic goods must have the right to opt out of tracking and usage tracking systems
- **Energy and Commerce:** Manufactures of digital equipment must make available to the consumer and to repair providers information necessary for documentation, diagnostics, repair purposes, and software updates, "on fair and reasonable terms," similar to S. 3830
- **Homeland Security:** Finish the southern border Wall; Return to the "Remain in Mexico" policy; follow Trump's lead in deporting illegals
- **Foreign Affairs, Asia:** Recognize Taiwan as a sovereign country and have official diplomatic relations
- **Foreign Affairs, Asia:** Remove China's "most favored nation" status; this act of removal has precedent in the case of human rights violations; this symbolic act does not necessarily affect any trade agreements currently in place
- **Committee on the Climate Crisis:** Withdraw from the Paris Climate Agreement, again
- **Congressional Rules Committee/Agriculture:** Nutrition programs must be submitted to Congress separately from the Farm Bill or any other resolution
- **Congressional Rules Committee/Agriculture:** Rural Development legislation must be submitted to Congress separately from the Farm Bill or any other resolution
- **Congressional Rules Committee:** Amendment for size of House resolution, such as 100 pages requires 24 hours to pass after its submission before a call to vote OR a one subject matter per bill rule

## Protect the American Dream

As a military wife and mother of five, I want to preserve our constitutional republic for ourselves and all the following generations. When serving in the U.S. House, I will protect religious freedom, freedom of speech in the market place, our sovereign borders from government-aided invasion, our farmland from hostile foreign entities, our economy by insisting on critical infrastructure to be manufactured in America, our children from Critical Race Theory and gender confusion, our right to dictate our own medical decisions, and our unborn children and their rights from conception. Election integrity resides with each State, but I support hand counting ballots. I will stand against any legislation that restricts gun ownership.

I understand China as our near-peer adversary. I have no desire to engage my husband or sons in an unjust war. For me, a just war must involve America's direct interests. I am not in favor of sending our taxpayer funds into another country's war zone; but, if I did, I would want specific controls on how we track the use of those funds in order to guarantee its proposed purpose. Otherwise, I vote, "No." We need to ensure we have adequate, yea superior, military equipment for our troops. Our military must continually be strengthened in order to protect ourselves, to protect our allies, and to deter our opponents.

I stand with America First. I find elite groups that exist outside of America's three branch system to be harmful as they usurp the original intent of the Founders and thereby allowing gateways in which our republic may falter. I would and do oppose the UN's agendas because they impose their morality on the American people without our vote. This includes their 2030 Agenda and their Rights of a Child. I am disillusioned with the FBI and the USA Patriot Act. I stand with Javier Milei in his disdain for the World Economic Forum.

America finds itself in much disorder at the hand of the Biden administration. I may not have addressed your issue here, but I do want federal legislators to legislate rather than delegate their duties to others. Minnesota deserves to have a vocal champion that votes on principle: principles from the Holy Bible and from the Founding Fathers.
