

To All Delegates Headed to CD7 Convention at Jackpot Junction in Morton, MN:

## Your US House candidate needs your vote now.

By CD7 guidelines, a person running for US House need to collect “twenty-five (25) signatures of delegates, living within CD7, from five (5) different Senate Districts who state they will vote for the nominee on the first ballot” at the Morton Convention 2024. Without these promissory signatures, your candidate will not be able to present herself at the convention. You can find a copy of the Candidate Nomination Form and the rules here: <https://www.watson4mn.com/campaign-resources>.

I am Annette Watson. I want to be your vocal voice in Washington DC. I want both national security and prosperity in America. I am willing to say the hard things that need to be said. The mainstream media, Marxist influencers, and Communist China all have the goal of bending Americans to their perspective by manipulating the language. I refuse to adhere to their rules. I will not falter in declaring that biology only has two sexes. A zygote is a person with inalienable rights. America should withdraw from Ukraine. Israel, and not Gaza, should receive our support. Taiwan is a sovereign country. Trump is facing political persecution. Parents are not terrorists; they deserve to be able to know and to influence their children’s education. The government must prosecute groomers of children. America’s heritage is noble, and our heroes should not be erased but venerated. Veterans are true heroes. My God is a God of Truth. I cannot deny any universal truth while representing you.

I want the American Dream to be alive and attainable to all American citizens and those who arrive here legally. This means creating prosperity by opening pipelines, encouraging entrepreneurship, prohibiting foreign governments from buying up land, and supporting the traditional nuclear family. This means creating security by closing all US borders, building a physical southern wall, removing illegals from our borders, respecting the law and the people who serve as law enforcers, rejecting all moves to limit our Second Amendment’s right to arms, and voting no to spending bills that do not have any way of tracking the funds. It’s also time for us to find a way to balance our budget. If Minnesota can do it, the federal government can too. In short, we need someone in Washington to never back down from these ideals.

## Let me, Annette Watson, be your voice in Washington.

If you are inclined to vote for me, please reach out. My phone (320-287-0348) accepts calls and texts. You can email me at [annettewatson@sekur.com](mailto:annettewatson@sekur.com). Delegates, I need your signatures so that I can say these things in Morton and to all Minnesotans when I receive the endorsement.

God bless you as you follow your conscience and serve our Great Country.

# Annette Watson
